

WILDLIFE MANAGEMENT

A major concern in this country is vanishing wildlife and wildlife habitat. Some of this loss comes from a lack of knowledge about the creatures of nature.

This program feature will help Scouts in the troop to appreciate wildlife and how it lives, and to develop a sense of what Scouts can do to help protect and preserve the animals around them.

If you live in the city, this program feature will give you an opportunity to go to a rural location to observe nature, or to visit a zoo. If you live in a rural area, this feature may reactivate your awareness of wildlife around you and what you can do to protect it.

SCOUTING OUTCOMES

This month's patrol and troop activities should give your Scouts

- An appreciation for the wonders of nature and possibly a growing feeling of closeness to God
- A greater understanding of how pollution affects the natural world and how Scouts can help stop it
- A strengthened resolve to do their "duty to country" through good conservation practices
- Increased self-confidence
- A desire to protect the wildlife of our country

ADVANCEMENT OPPORTUNITIES

By month's end, all Scouts should meet many of their basic nature requirements through First Class rank. Depending on this month's activities, they may also complete all or part of the following rank requirements:

Tenderfoot

- Outdoor—hiking, camping, nature, cooking
- Citizenship—flag ceremonies
- Patrol/troop participation—patrol identification
- Personal development—Scout Oath and Law
- Physical fitness

Second Class

- Outdoor—cooking, camping, hiking, nature
- Citizenship—flag ceremonies
- Patrol/troop participation
- Personal development—Scout Oath and Law

First Class

- Outdoor—cooking, camping, nature, hiking
- Citizenship—flag ceremonies
- Patrol/troop participation
- Personal development—Scout Oath and Law

Merit Badges. Experienced Scouts can concentrate on the Nature merit badge this month; they should be able to complete almost all of the requirements. Depending on activities during the campout, they may also complete requirements for the Camping, Cooking, Mammal Study, Fish and Wildlife Management, Insect Study, and Wilderness Survival merit badges.

PARENT/GUARDIAN PARTICIPATION

The patrol leaders' council can involve parents in the program feature this month by

- Asking qualified people to assist with instruction for camping and nature skills
- Inviting families on the outing
- Asking parents to provide transportation to the campsite

PATROL LEADERS' COUNCIL

The patrol leaders' council should meet during the early part of the previous month to plan troop activities for this program feature. If you don't complete all items on the following agenda, continue planning at patrol leaders' council meetings after each troop meeting.

- Decide on the place for the campout. If possible, choose a location with a variety of nature environments so that Scouts will find a wide range of trees, plants, and mammals. If the location is in the vicinity of a fish hatchery or game or forest preserve, arrange for the troop to visit. Assign someone to secure permissions, if necessary.
- Plan the special activities for the campout. See the ideas on these pages. If special gear or tools will be needed, assign someone to obtain them. Seek help from the troop committee, if necessary.
- Plan details of troop meetings for the month. Assign patrol demonstrations, covering skills that will be needed for the campout activities.
- Exchange ideas for conservation projects that might be completed by individual Scouts or patrols for requirements for Tenderfoot through First Class ranks.

FEATURE EVENT

Management Outing

An animal is generally referred to as any living organism other than a plant. Wildlife lives in a basically free

condition, providing for its own food, shelter, and other needs in a suitable habitat. Wildlife could be organisms only visible through a microscope, or as large as a whale. Wildlife includes insects, spiders, birds, reptiles, fish, amphibians, and mammals.

All around us, wildlife habitat is being lost. Whenever land is paved for a shopping center, excavated for homes, or plowed to grow food, small animals lose their homes and frequently their sources of food and water. As small animals disappear, so do the larger animals that prey upon them.

How can Scouts help the wildlife in your area? They can become aware of what habitats are being threatened, know what wildlife lives around them, and work with local agencies to help protect the wildlife.

Wildlife Project Ideas

- Photograph or document the wildlife in your area so you can identify it.
- Contact local government or other agencies that you can work with in wildlife management.
- “Adopt” a wildlife habitat and observe and protect it.
- Work with local parks or zoos and “adopt” an animal that you can care for and protect.
- Become aware of areas that are being commercially or privately developed and the impact that will have on the environment.
- Share with the public what wildlife exists in their area by showing a display of wildlife in a mall or shopping center.
- At your troop meetings each week, feature a different animal that is endangered. Talk about how Scouts can protect it from extinction.
